Think of it as the brain that turns your IFPD into a fully functional computer. This sleek, slide-in module is built with some of the most advanced, high-performance technology in the industry delivering speed, stability, and seamless integration you can trust. Run apps, browse the internet, and present effortlessly, all without a separate laptop. With OPS, your IFPD transforms into an all-in-one powerhouse that educators and professionals can rely on. It's not just smart — it's the must-have upgrade for every modern classroom.

White-Label IFPD Manufacturing

YOUR BRAND. OUR TECHNOLOGY.

Empowering brands to launch world class IFPDs without the hassle

At Ineuu Touch Displays Pvt. Ltd., we specialize in **white-label** and **OEM** manufacturing of interactive flat panel displays, helping you bring **premium-quality IFPDs** to market under your own brand name. From design and component sourcing to assembly, testing, and packaging-we provide an **end-to-end manufacturing solution** so you can focus on marketing, sales, and customer success.

OUR WHITE-LABELLING SERVICES INCLUDE

Custom branding & logo integration: Panels, frames, software interface, and packaging in your brand style.

Multiple Size Options: 65", 75", 86" 98" (custom configurations available.)

Flexible software platforms: Android, windows OPS, or hybrid solutions tailored to your audience.

Firmware & UI customisation: Splash screens, themes, and in panel branding.

Packaging & collateral design: Box printing, manuals, and marketing materials in your brand voice.

End-to-end assembly in india: Global grade quality with competitive costs and faster delivery.

Strict quality control: Every unit tested for display performance, touch accuracy, connectivity, and durability.
